

PREMIUM CONSTRUCTION AND FEATURES AT AN ENTRY LEVEL PRICE.

SEALED FLOOR

Helps keep your valuable cargo dry. Our $\frac{3}{4}$ " plywood floors are fully sealed around the perimeter edges. Steel provides the backing and hi-tech sealant keeps the water and dust out.

PAINT AND PRIMER

All painted areas on Hero Trailers are prepped, primed and painted. Our better prep, primer and paint combined with all of our trailers being manufactured under one roof leads to much better, longer lasting paint.

ALL STEEL FRAME

All Hero trailers feature a rugged all steel frame. Our side doors have a steel tube header and frame. Better frames equal a better, longer lasting trailer.

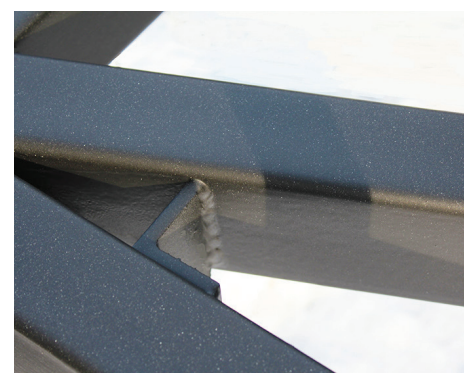

WORKMANSHIP

We are proud of the trailers we build! Please take a look at the fit and finish of our trailer versus the competitions. Look at the trim, miters, paint, interior finish and judge for yourself. We take the time to do it right, both inside and out.

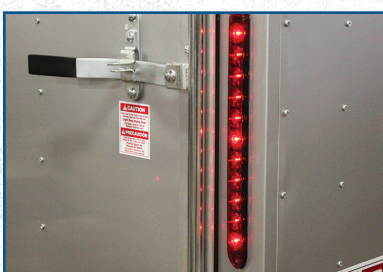

REINFORCED REAR CROSSMEMBER

All Hero trailers with rear ramp doors have a tube connecting the rear cross member where the hinge is welded on to the nearest cross member. This reinforcement adds strength at a critical tension point.

REINFORCED A-FRAME

Hero reinforces the tube A frames where they attach to the trailers main frame. Reinforced A frames equal stronger, safer and longer lasting trailers.

STANDARD LED TAILLIGHTS ARE
BRIGHTER, SAFER AND LAST LONGER

STANDARD FLOW-THRU SIDEWALL
VENTS KEEP AIR MOVING

OPTIONAL REAR RAMP DOORS LOOK
GREAT AND ARE TRIMMED IN ALUMINUM
