

Low Volume Vehicle Manufacturer – Replica Vehicle Registration

Registration Date June 9, 2025
Manufacturer Name Scuderia Cameron Glickenhauѕ LLC
Manufacturer Address 8 Kendall Avenue
Sleepy Hollow, New York, 10591
Manufacturer Email Dreams@Glickenhauѕ.com

Dear NHTSA,

Scuderia Cameron Glickenhauѕ LLC [herein after “Scuderia Cameron Glickenhauѕ”]]is a low volume manufacturer eligible to register a replica motor vehicle manufacturer under 49 CFR Part 586.

This submission represents Scuderia Cameron Glickenhauѕ’ registration as a replica motor vehicle manufacturer under 49 CFR Part 586.

The goal of Scuderia Cameron Glickenhauѕ is to manufacture this replica vehicle 100 percent in the United States of America, using suppliers and components that come 100% from the United States of America. We are aiming to be the first automotive manufacturer to achieve this goal in many decades.

Our registration below.

Thank you.

Sincerely,

Jesse Glickenhauѕ

Table of Contents

| | |
|--|----|
| 1. Scuderia Cameron Glickenhauѕ is a low volume manufacturer that meets requirements to register as a replica vehicle manufacturer under 49 CFR Part 586..... | 3 |
| 2. Scuderia Cameron Glickenhauѕ is not registered as an importer under 49 CFR 592..... | 4 |
| 3. Scuderia Cameron Glickenhauѕ' annual worldwide production is less than 5,000 vehicles. 13 | |
| 4. Scuderia Cameron Glickenhauѕ has submitted our manufacturer identification information pursuant to part 566..... | 19 |
| 5. Certification that Scuderia Cameron Glickenhauѕ' annual motor vehicle production is less than 5,000 vehicles per year, including during the past 12 months..... | 21 |
| 6. Original Vehicle's Make, Model, and Model Year..... | 22 |
| 7. Information sufficient to establish that Replica vehicle is intended to resemble the body of the original vehicle..... | 23 |
| 8. Statement Certification of obtaining all Intellectual Property, etc., to legally produce this replica vehicle..... | 33 |
| 9. Statement of Certification that manufacturer will not manufacture more than 325 replica motor vehicles per calendar year..... | 34 |
| 10. Information required for a Part 566..... | 35 |

1. Scuderia Cameron Glickenhau s is a low volume manufacturer that meets requirements to register as a replica vehicle manufacturer under 49 CFR Part 586

United States 49 CFR Part 586.6(a) states the requirements for a manufacturer to be eligible to register under 49 CFR Part 586 as a replica vehicle manufacturer:

- (1) The manufacturer is not registered as an importer under 49 CFR part 592
- (2) The manufacturer's annual worldwide production, including any by a parent or subsidiary of the manufacturer, is not more than 5,000 motor vehicles;
- (3) The manufacturer has submitted manufacturer identification information pursuant to part 566.¹

Scuderia Cameron Glickenhau s meets each requirement as detailed in Sections 2, 3, and 4 below.

¹ 49 CFR Part 586.6 ("a manufacturer may registered under this part as a manufacturer of replica motor vehicles if").

2. Scuderia Cameron Glickenhauѕ is not registered as an importer under 49 CFR 592

Scuderia Cameron Glickenhauѕ is not registered as an importer under 49 CFR 592.

NHTSA maintains a list of registered importers under 49 CFR Part 592.

Scuderia Cameron Glickenhauѕ is not on NHTSA’s list of registered importers.²

While NHTSA has indicated that websites do not necessarily provide solid evidence, we believe that does not apply to NHTSA’s own website.

We have also included a series of 16 images below that represent the complete list of NHTSA’s registered importers as it was saved directly from NHTSA’s website on June 8, 2025. The page numbers and time and date stamps can be seen on the corners of each image. None of the words “Scuderia”, “Cameron” or “Glickenhauѕ” appear independently or together on NHTSA’s list of registered importers. Therefore Scuderia Cameron Glickenhauѕ is not a NHTSA registered importer.

² NHTSA “Active Registered Importers” as of As of March 18, 2025 <https://www.nhtsa.gov/importing-vehicle/registered-importers> (Last accessed June 8, 2025).

[Registered Importers](#) [Active Registered Importers](#) [Enforcement Actions](#) [For Importers](#)

Active Registered Importers

The following is a list of businesses that have been approved as Registered Importers (RIs) by the National Highway Traffic Safety Administration to import vehicles that were not originally manufactured to comply with applicable Federal Motor Vehicle Safety Standards (FMVSSs), and to perform the necessary modifications to bring the vehicles into conformance. This list, which is sorted by state, then alphabetically by business name, is a list of all active RIs. Should an RI choose not to renew their registration, or should NHTSA suspend or revoke their registration, that RI will be removed from the list.

Please keep in mind that RIs are independent business entities and may be selective in terms of the work they perform. To assist you in locating an RI that meets your needs, the listing is annotated to identify an RI's area of interest. Since the area of interest of an RI may change, this listing does not restrict the type of services that an RI may provide. NHTSA does not endorse or recommend any of the listed RIs, nor does it represent or guarantee your satisfaction with any work or services performed by an RI. Only an RI may import nonconforming vehicles for resale. If you would like to bring nonconforming vehicles into the United States for resale, you must become an RI.

As of March 18, 2025

3. Scuderia Cameron Glickenhauѕ' annual worldwide production is less than 5,000 vehicles

Scuderia Cameron Glickenhauѕ is a low volume manufacturer, who has produced fewer than 100 vehicles worldwide in our entire history.

“Glickenhauѕ, which produces around 30 vehicles annually subject to the final rule, petitioned for reconsideration of the requirements for small-volume manufacturers.³” We wanted to race in the United States of America, but the racing organization IMSA would not allow us to race, because they ban manufacturers who have not sold 2,500 vehicles in the United States of America.⁴

Scuderia Cameron Glickenhauѕ is a private company and does not have a parent company, any subsidiary companies.⁵

Low volume manufacturers have a manufacturer identifier with six (6) characters where the third digit is a “9.”⁶

By definition, our World Manufacturer Index [hereinafter “WMI”] Number for our relevant vehicle type becomes our manufacturer identifier.

Scuderia Cameron Glickenhauѕ has several WMI Numbers, as required, for different vehicle types.

Every WMI Number for Scuderia Cameron Glickenhauѕ is six characters, with the third character always a “9”. We provide images of the official letters granted Scuderia Cameron Glickenhauѕ its WMI numbers.

³ Department of Transportation National Highway Traffic and Safety Administration. Federal Register Vol. 89, No. 228, Tuesday, November 26, 2024. Rules and Regulations, page 93218 Available at <https://www.govinfo.gov/content/pkg/FR-2024-11-26/pdf/2024-27349.pdf> (“The final rule did not alter requirements for small-volume manufacturers but allowed an additional year for compliance for small-volume manufacturers. Glickenhauѕ, which produces around 30 vehicles annually subject to the final rule, petitioned for reconsideration of the requirements for small-volume manufacturers, stating that the standard would cause substantial financial hardship.”)

5. Certification that Scuderia Cameron Glickenhauѕ' annual motor vehicle production is less than 5,000 vehicles per year, including during the past 12 months.

Certification – Annual Production is less than 5,000 vehicles per year

I, the undersigned, hereby affirm and certify the following to be true and accurate:

I am an Authorized Representative of Scuderia Cameron Glickenhauѕ LLC, a New York Limited Liability Company with its principal office address located at 8 Kendall Avenue, Sleepy Hollow, New York 10591.

Scuderia Cameron Glickenhauѕ LLC is a privately held Low Volume Manufacturer that does not have a parent company or subsidiary that are motor vehicle manufacturers.

Scuderia Cameron Glickenhauѕ LLC has produced (either internally, or had produced on its behalf) fewer than 100 vehicles worldwide in its entire history.

In the past 12 months Scuderia Cameron Glickenhauѕ LLC's world wide vehicle production has not exceeded four (4) vehicles, none of which were manufactured as customer road vehicles in the United States of America.

Acknowledged and swore to on June 9, 2025:

Scuderia Cameron Glickenhauѕ LLC

By Jesse C. Glickenhauѕ, CEO

6. Original Vehicle's Make, Model, and Model Year

| | |
|--------------|--------------------|
| Vehicle Make | Hurst |
| Model | Baja Boot |
| Model Year | 1967 |
| Vehicle type | MPV open body type |

The original Hurst 1967 Baja Boots were manufactured as road legal vehicles for consumer sale with the required safety equipment at the time of manufacture, including a patented safety bucket seat.

The original Baja Boot MPVs had headlights with low beams and high beams, turn signals, windshields, windshield wipers and washers, left and right side mirrors, rear view mirrors, seats, seatbelts, rear taillights and stoplights, and a full size spare tire. They came with canvas removable soft tops.

The original Baja Boots were manufactured for customer sales, and shortly after their manufacture were in fact sold to customers who registered the vehicles for road use in the State of California, and drove them on public roads in the United States of America.

The historic pictures below show the headlights, side mirrors, front turn signals, windshield, windshield wipers (two black boxes at the top of the windshield), tail lights, high mounted rear stop light, and the historic California road license plate B J Boot).

7. Information sufficient to establish that Replica vehicle is intended to resemble the body of the original vehicle

Scuderia Cameron Glickenhau s' Replica Baja Boot is intended to, and clearly does resemble the body of the original vehicle.

Below are images of the original Hurst Baja Boot.⁸

⁸ Part 586.6(b)(3)(i) (“the images of the front, rear, and side views of the exterior of the original vehicle”)

Below are images of the front, rear, and side views of the representative replica motor vehicles, in the same photograph or on the same page as the original motor vehicles.⁹ Original Baja Boot 1967 (right) and Scuderia Cameron Glickenhau s Replica Boot (left)

Original Baja Boot 1967 (left) and Scuderia Cameron Glickenhau s Replica Boot (right)

⁹ Part 586.6(b)(3)(ii) (“If the manufacturer has previously replicated the original vehicle(s), images of the front, rear, and side views of the exterior of a representative replica motor vehicle.”)

Original Baja Boot 1967 (left) and Scuderia Cameron Glickenhau s Replica Boot (right)

Original Baja Boot 1967 (foreground) and Scuderia Cameron Glickenhau s Replica Boot (background)

Original Baja Boot 1967

Scuderia Cameron Glickenhauѕ Replica Baja Boot

Original Baja Boot 1967 (right) and Scuderia Cameron Glickenhau Replica Boot (left)

Original Baja Boot 1967 (right) and Scuderia Cameron Glickenhau Replica Boot (left)

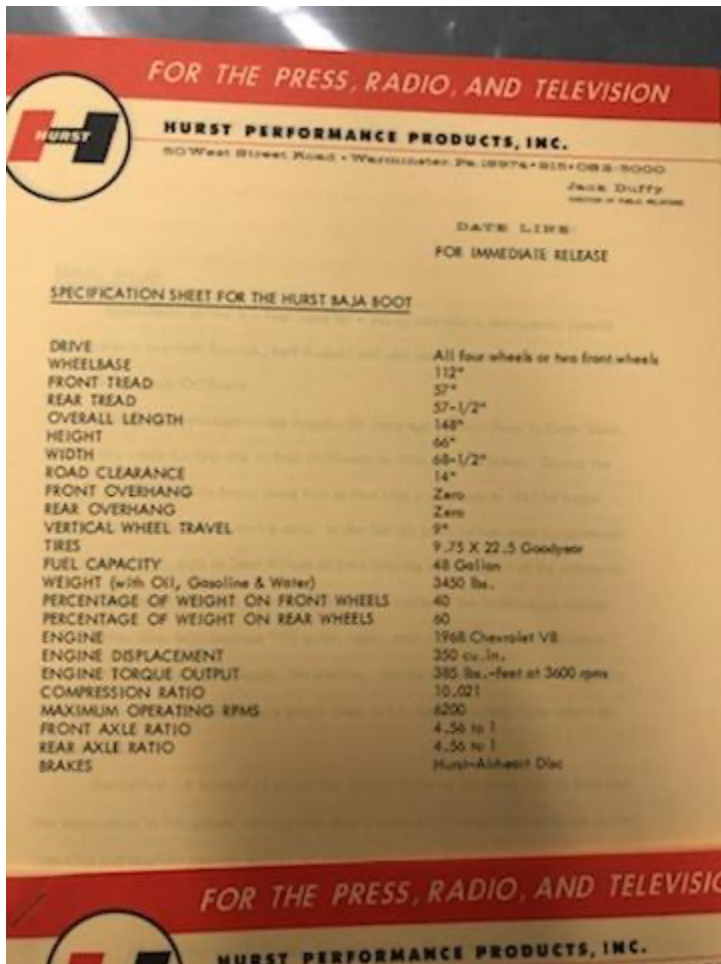

Original Baja Boot (left), and Scuderia Cameron Glickenhau Replica (right) manufacturing

The following information shows the replica motor vehicles height, width, and length as it compares to 10% of the original vehicle.¹⁰

Scuderia Cameron Glickenhau s tried to build our replica to as close to the original dimensions as possible, while following the original body, as well as engine and transmission layout, the suspension layout being independent front and rear suspension, as well as the front and rear differential layouts.

The following original manufacturer press release shows the original Hurst Baja Boot, 1967 dimensions.

¹⁰ Part 586.6(b)(3)(iv-v).

The following table shows the Hurst Baja Boot original measurements; the Replica Baja Boot measurements, in inches, and what the measurements would be if they were within 10% of the original. The replica measurements highlighted green are within 10% of the original.

| | Hurst Baja Boot (inches) | Replica Baja Boot (inches) | Original Vehicle Measurements +10% (inches) |
|---|--------------------------|---|---|
| Height (original given for the original appears to to the roof, not to the top of the air inlet scoop) | 66 | 68.5 (to bottom of scoop) 72 to top of scoop | 72.6 |
| Width (original width was given without the side mirrors) | 68.5 | 80 | 75.35 |
| Wheelbase | 112 | 115 | 123.2 |
| Overall Length | 148 | 185 | 162.8 |

We were able to design the replica vehicle to stay within 10% of the original vehicle for the vehicle height and wheelbase.

The reason the width deviates slightly from 10% of the original vehicle width is that Scuderia Cameron Glickenhauѕ wanted to use wider wheels and tires than the original vehicle to allow for better traction and driveability, and that by going to a slightly wider wheel and tire, we have increased the overall width by slightly over 10% of the original vehicle. It may be possible for us to keep the wider tires and wheels and slightly reduce the vehicle width, if necessary, to stay within 10% of the original vehicle.

We were able to keep the wheelbase within 2.7% of the original vehicle. The reason the overall length is longer than 10% of the original vehicle is that the original vehicle, as can be seen in the press release information above, had zero front and rear overhang. We added front and rear fuller fenders and a full front and rear bumper. This extra protection around the tires and front and rear structures was intended to allow energy absorption during a crash. We designed those structures to resemble the original vehicles, just with added crash safety features. We also added larger side mirrors to afford better visibility.

8. Statement Certification of obtaining all Intellectual Property, etc., to legally produce this replica vehicle

Certification: Scuderia Cameron Glickenhaus has obtained all Intellectual Property necessary to legally produce the replica motor vehicle described in the application

I, the undersigned, hereby affirm and certify the following to be true and accurate:

I am an Authorized Representative of Scuderia Cameron Glickenhaus LLC, a New York Limited Liability Company with its principal office address located at 8 Kendall Avenue, Sleepy Hollow, New York 10591.

Scuderia Cameron Glickenhaus LLC has obtained the original intellectual property and all licenses necessary to legally produce the replica motor vehicle. Scuderia Cameron Glickenhaus LLC has possession of the original design drawings and models, including a full 1:1 scale vehicle design drawing.

Scuderia Cameron Glickenhaus LLC has previously manufactured replica Baja Boot vehicles, which obtained significant publicity, and Scuderia Cameron Glickenhaus LLC has received official support from the supplier of the original components (General Motors), as well as from many of the original manufacturers of other components. Scuderia Cameron Glickenhaus LLC has Intellectual Property registrations and filings throughout the United States of America and around the world, and we have never received any notification of any intellectual property violations. In fact, we license our Intellectual Property and designs out to major corporations.

Acknowledged and swore to on June 9, 2025:

Scuderia Cameron Glickenhaus LLC

By Jesse C. Glickenhaus, CEO
